

Innovative Technology Solutions for Moving to Work Agencies

Highly configurable to support MTW Initiatives

Business Case

ReFrame Assist provides a completely configurable solution for Moving to Work agencies.

The Background

MTW Agencies are charged with designing innovative programs to increase administrative efficiency, encourage self-sufficiency, and expand housing choices. Traditional vendors do not support MTW program design.

Business Challenge

Moving to Work programs utilize customized business rules that are not supported on the traditional 50058 Family Report. MTW Agencies need flexible, highly configurable options to support program initiatives.

Our solution provides configurable features to support:

Administrative efficiency

Rent Reform

Landlord incentives

Game Changer

ReFrame Assist offers solutions that put the decisions in the hands of the PHAs to support MTW program plans.

ReFrame Assist provides a flexible and expandable platform that combines traditional HUD compliance with the simplicity of the cloud and provides scalability for small, medium, or large PHAs. ReFrame is a SaaS-based platform delivering true affordability and excellent value. ReFrame Assist offers the flexibility and control to help create new initiatives for procedures and policy improvements that address your specific needs.

The Advantage

Flexible

ReFrame Assist offers MTW PHAs the flexibility to create and manage unique programs that allow agencies to fully leverage their MTW Flexibility.

Configurable

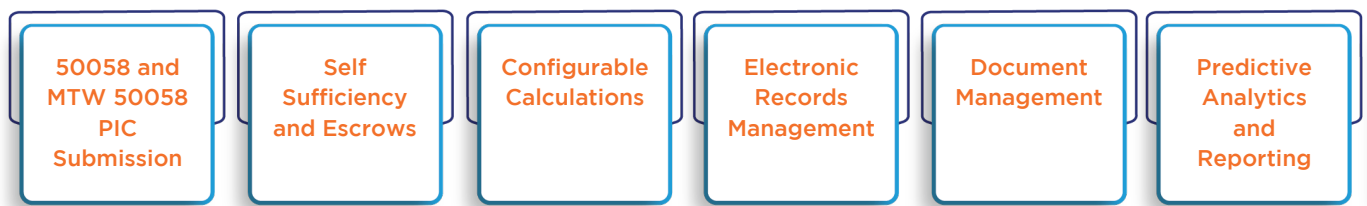

Re-evaluate your rent reform process and rent policies and use ReFrame Assist to help increase resident self-sufficiency and reduce administrative burden.

ReFrame Difference

ReFrame Assist helps housing authorities efficiently administer federal, state, and local low-income housing programs while easing compliance burden.

The platform allows MTW agencies to streamline administrative operations and practices, which will significantly reduce costs related to outdated software or manual processes your staff may experience managing existing programs.

ReFrame Assist offers a full suite of applications supporting each Cohort of the MTW Demonstration Program. We understand the challenges PHAs face in providing the best-in-class innovative technology solutions to solve the most critical business problems with current processes and program administration. We realize the MTW Demonstration Program offers numerous benefits to your agency by evaluating new flexible solutions to help implement new rent policies, increase self-sufficiency for families, provide landlord incentives, and improve overall administration of housing programs.
